§ 2 Subject matter of contract, scope of services

- § 2.1 OMNINET supports the customer in the implementation of contractually defined projects of providing more closely agreed services.
- § 2.2 OMNINET does not owe any success. The responsibility for the implementation of the project (project management) lies, unless expressly agreed otherwise, exclusively with the customer.
- § 2.3 OMNINET will provide its services in accordance with the respective state of the art.
- § 2.4 OMNINET shall use adequate employees for the performance of the contractually agreed services. These employees are free to determine their place of performance and their time of performance insofar as this is not opposed by compelling work-related requirements of the customer and nothing else has been contractually agreed. OMNINET decides at its own discretion which employees it employs or replaces. The customer may express wishes regarding the selection of employees that OMNINET will take into account in its selection decision. The customer has no claim to the deployment of a certain OMNINET employee.
- § 2.5 OMNINET may also commission sufficiently qualified third parties with the performance of the agreed services.

§ 2.6 OMNINET shall, as far as possible, provide the customer with evidence of the services provided by OMNINET in accordance with the contractual agreements. The customer is obliged to check these proofs of performance immediately and to inform OMNINET immediately in writing of any objections.

§ 2.7 Objections against the evidence submitted by OMNINET shall be substantiated in an easily comprehensible manner. An objection, which is not easily comprehensibly substantiated, shall not be deemed to be an objection.

§ 2.8 Unless a notice of objection is given within two (2) weeks after receiving the performance records from the customer, the services listed therein shall be deemed to be in accordance with the contract.

§ 3 Additional services

§ 3.1 All services which are provided at the request of the customer but which are not included in the individual contract and its annexes are deemed to be **“additional services”**.

§ 3.2 The customer shall remunerate additional services separately. Unless the contracting parties reach a separate agreement on the remuneration, the additional services including any additional costs shall be remunerated in accordance with OMNINET's price list valid at the time.

§ 4 Property rights, rights of use

§ 4.1 To the extent that OMNINET acquires copyrights or industrial property rights in the course of the provision of the services, the customer shall receive a non-exclusive, temporally and spatially unrestricted, non-transferable right of use therein.

§ 4.2 The granting of this right of use shall be deemed to have been satisfied upon payment of the contractually agreed remuneration.

§ 5 Remuneration

§ 5.1 The services to be provided by OMNINET shall be remunerated by the customer according to the time spent. Daily or hourly rates shall apply within the scope of the usual business hours/office hours.

§ 5.2 Reference is made to § 1.4 GTC-GP.

§ 5.3 In addition to the remuneration, the customer shall reimburse expenses, in particular expenses, travel and accommodation costs of OMNINET's employees which are necessary for the progress of the project or which were caused by the customer. The customer shall pay all taxes, charges, customs duties, costs of payment transactions and line costs possibly incurred in connection with the performance of the service. Travel times of OMNINET's employees shall be reimbursed to OMNINET at the agreed hourly rate.
